Conclusions

1. 0.1% of annual foal crop
2. Magnitude of problem versus incremental benefits gained versus costs of deployment in U.S., Canada and Puerto Rico
3. Not a requirement of registration at this time

The Jockey Club

Report all changes in identification characteristics

Report microchips via Interactive Registration

- Planned roll-out Q1 2006
- Look-up capabilities behind secured log-in

Other initiatives

- InCompass: Search & query; ship in/out module
- TJCIS: Record & display within farm, vet and trainer software applications
